## Offutt aircraft to fly over Rosenblatt

**OFFUTT AFB, Neb.** – Please be advised that if you get phone calls of a large aircraft flying over the Omaha/Council Bluffs area that looks like “the President’s plane” today, people are most likely looking at the E-4B National Airborne Operations Center (NAOC) aircraft. The NAOC is a white 747 with a blue strip running the length of the aircraft.

The aircraft is scheduled to do a practice flyover of Rosenblatt Stadium at the conclusion of a routine mission it will fly today. The flyover will orient the crew to the flight path and enable the crew to test its communications with the stadium staff.

Please visit [www.airforceweek.com](http://www.airforceweek.com) to view the full list of major public events on tap for Air Force Week in the Heartland Aug. 9-17. We hope to see you there!

An Air Force Fact Sheet on the E-4B National Airborne Operations Center aircraft can be found at <http://www.af.mil/factsheets/factsheet.asp?id=99>.

For more information, call the 55th Wing Public Affairs office at 294-3663.
